Protaras, Cyprus

Village. View 1.

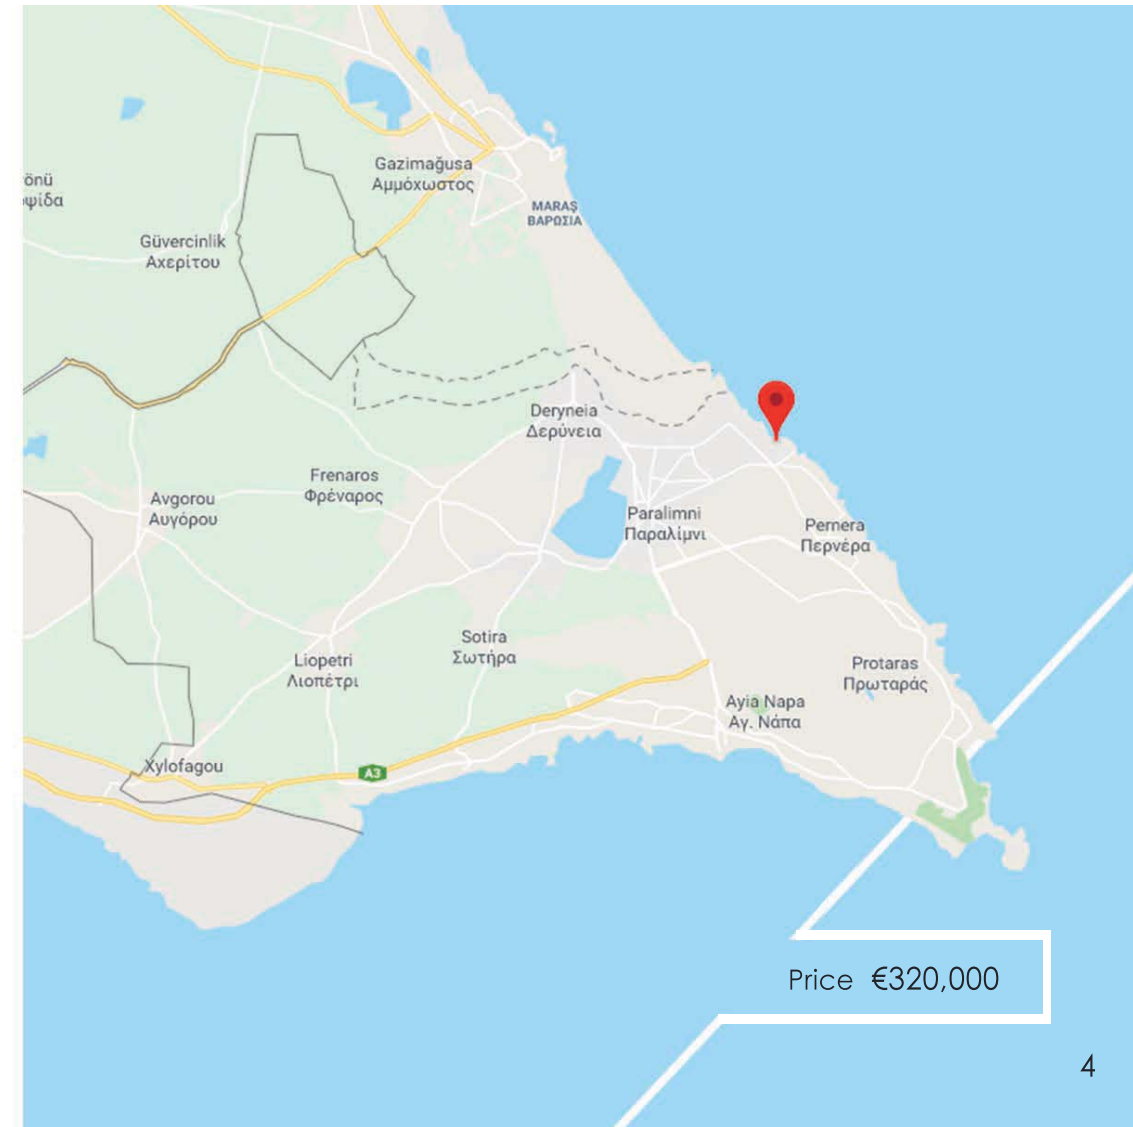

## Description of the Project

The new houses of the residential settlement "Dafni" are located just within 100 meters of the picturesque sandy beach. Protaras is one of the best tourist destinations in Cyprus, famous for its beaches, which have been proved as ones of the cleanest in Europe.

This small but cosy house has a sea view, swimming pool, covered verandas, front yard and parking. In total there are 27 houses in the settlement, there is also a playground and a public garden.

The house is suitable for permanent residence, summer holidays, or for income-earning while renting it. We can offer beneficial conditions to an owner for renting a house or its maintenance.

When buying a house at Dafni project, an owner can obtain a permanent residence permit if he wishes so and after 7 years of residence - the citizenship of Cyprus. We provide a full range of services on processing of documentation, helping you in opening accounts, supporting your business, as well as obtaining a bank loan.
